Now there's a better way: Allscripts Enterprise.

Benefits at a Glance:

Offline Synchronization

Adaptive Learning

Intelligent Navigation

Template-Free Charting

Easy Customization

Berkshire Experts Prefer Allscripts Enterprise

Berkshire Health Systems is making significant upgrades and investment to automate all inpatient and outpatient medical records across our system. Over the next few years, the way we collect, view, share and manage patient information will drastically change and improve the efficiency and quality of care delivered throughout the region.

As part of this effort, we are committed to helping you and all our private-practice colleagues select the right health care technology solution for your practice, allowing you to take advantage of the **\$44,000+ being offered to you** by the federal government.

Berkshire Health Systems conducted a thorough evaluation of the leading Electronic Health Record (EHR) solutions for private physician practices.

Allscripts and the Allscripts Enterprise solution offered unprecedented features, implementation, support and physician satisfaction. As a result, we are convinced that Allscripts and the Allscripts Enterprise integrated EHR, practice management and claims management solution is the preferred solution for the Berkshire community.

Allscripts Enterprise EHR is the clinical software solution of choice for multi-specialty and specialty practices as well as academic medical centers and hospital sponsored initiatives. Uniquely designed for the specific needs of physicians in today's increasingly interconnected healthcare environment, Allscripts Enterprise fully empowers and connects organizations clinically, operationally, and financially.

Allscripts Enterprise is where proven success meets innovation as Allscripts provides the experience, solutions and, most importantly, the results to help physicians and your practice thrive.

BHS conducted a thorough evaluation of the leading Electronic Health Record (EHR) solutions for private physician practices. The team chose Allscripts and Allscripts Enterprise as the best fit for the health care system as compared to the other leading vendors in the industry.

Experience, Solutions, Results

Allscripts Enterprise is an Electronic Health Record (EHR) and Practice Management Solution that's designed to work the way your practice works while providing the key features you require in a combined healthcare solution.

Experience

- > Industry leadership and blue chip client base of 4,000 clinics and 40,000 physicians
- > Huge footprint, perfectly positioned to help community and hospital organizations penetrate the community market
- > Top KLAS ratings across many key categories

Solutions

- > Easy to learn and use, fast to deploy, and smart
- > Connectivity to patients, payors, other systems, pharmacies, labs, and medical devices
- > Add-on functionality to assist with reporting, patient portals, clinical trial reporting and medication dispensing

Results

- > The solution that pays you back through reduced and extensive P4P reporting capabilities
- > Enhancing quality of care through CareGuides and robust patient population management (CQS)
- > Easiest claims management available. Higher first-pass yield, with easy review and corrections prior to submission.

“Interoperability will bind together a wide network of real-time, life-critical data that not only transform but become health care.”

David J. Braile
