Welcome to the Berkshire Visiting Nurse Association

Thank you for considering the BVNA for your home healthcare service. Since 1905, Berkshire County residents have relied on the BVNA to provide

comprehensive, compassionate, skilled care in the comfort and privacy of their own homes. Today, we employ more than 100 of Berkshire County's finest healthcare professionals to carry on that tradition.

Our Mission

The Berkshire Visiting Nurse Association provides comprehensive, multidisciplinary healthcare to individuals and families.

The BVNA enhances the health status of the community through individualized therapeutic care in the home, public health efforts, health maintenance and promotion in clinic settings.

Making a Difference/ Service Excellence

Your satisfaction is always our priority. We use electronic medical records to provide accuracy and coordination of your care with your physician and other health facilities.

BVNA Services

Multidisciplinary teams provide direct care and education of all age groups to support healthcare needs, including but not limited to:

- Skilled Nursing
- Physical, Occupational and Speech-Language Therapy
- Social Services
- Cardiac and pulmonary care
- Wound and ostomy care
- Infusion services
- Disease management
- Pain management
- Medication management and education
- Patient education to promote self-management
- Care for new mothers and babies

Our Specialty Programs

- Heart Failure and Telemonitoring
- COPD
- Take the Next Step at Home- Joint Replacement Support
- Fall Risk Assessment & Prevention

The team includes the following members:

Specialized Nursing Care: Professional nurses provide assessment, education, treatment and emotional support for a full range of medical problems.

Rehabilitation Staff: Physical, occupational, and speech therapists work with individuals recovering from illness or injury to assist in maximizing independence.

Home Health Aide Staff : Our dedicated caregivers work under the direction of a nurse or therapist to provide assistance with bathing, dressing, exercises and light meal preparation.

Social Work Staff: We help patients and their families deal with the emotional, financial and physical needs resulting from illness.

Business Staff : We provide answers to scheduling and billing questions.
